

# LUMECON RING OF FIRE

## RECENT INSTALLATIONS

VFW National Homes Installation

### City of Northlake (Northlake, IL)

*The LROF fixture is unprecedented. Overall light levels and general aesthetics are unlike anything we've seen before in the LED industry. The lighting throughout our downtown has dramatically improved, with rebate incentives offsetting substantial components of the project.*

- Mayor Jeffrey Sherwin, City of Northlake, Illinois

FIND OUT MORE: 248.477.5009

## TESTIMONIALS

---

**Broadway Bridge Park (Ann Arbor, MI)**

*"People have commented to the city council that they are very pleased with the look of the bridge now that all of the lights are working. An unexpected benefit is that the globe even sparkles in the daytime when the lights are not even on."*

*- Chuck Fojtik, Lighting Field Operations Supervisor*

**Soldier Field (Chicago, IL)**

*"We cannot get over the fact that these are 60w fixtures replacing 175w HPS one for one. With so many events ending in the evening, the only light solutions considered had to meet critical lighting standards."*

*- Mike Ortman, Former Chicago Parks / Campus Facility Director*
