	LBOL-1		13W	70W	1,063 Lm.	81 LPW	42" Bollard Standard Profile

DISTRIBUTION SPREAD

EXTERNAL HEAT SYNC MANAGEMENT SYSTEM

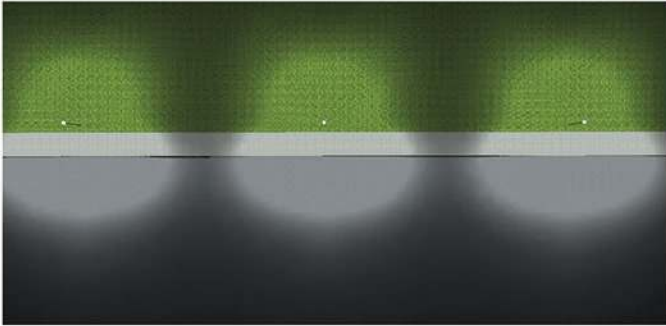

Lumecon's decorative lineup takes advantage of an external heat sync ring, which allows for:

- Maximized Heat Dissipation
- Lowered Fixture Temperatures
- Increased Energy Efficiency
- Decreased Maintenance Costs
- Increased Fixture Lifetime

MAXIMUM DISTRIBUTION AND SPREAD

Angled LED board placement combined with prismatic lensing provides optimal light distribution throughout the Lumecon decorative lineup.

Type III

Type V

NO VISIBLE "POINTS OF LIGHT"

Custom tooled prismatic lensing disguises the "points of light" commonly associated with LED decorative globes, which reduces fixture glare.

* Heat sync rings, struts, and fitters can be ordered with custom color options to cater to project specific goals.

DECORATIVE 10 YEAR L70 ALL-PARTS WARRANTY

Decorative Post-Top Fixtures

Lumecon's decorative post-top fixtures utilize our patented external heat sync management system, which increases the overall life of the fixture. A custom tooled prismatic lensing eliminates the "points of light" commonly associated with LED decorative globes. Each post-top fixture that leaves our warehouse has been rigorously tested to ensure proper illumination performance.

- Ideal fixture for lighting Main Streets, Residential Communities, Walkways and Parks
- Customizable ring colors and accessories to match existing light fixtures and poles
- 10 Year / L70 Performance Based Warranty
- 20kA Surge Suppressor included standard

Significant Energy Cost Savings

EXISTING 175w FIXTURES: TOTAL COST OF OWNERSHIP

Annual Maintenance	\$100.00
Annual Energy Used	933 kWh
Annual Energy Costs	\$93.29
Total Annual Costs	\$193.29

PROPOSED 60w LED FIXTURES: TOTAL COST OF OWNERSHIP

Annual Maintenance	\$0.00
Annual Energy Used	263 kWh
Annual Energy Costs	\$26.28
Total Annual Costs	\$26.28
